TO WHOMSOEVER IT MAY CONCERN

We have been using software products of BEES SOFTWARE SOLUTIONS since 2017 soon after we became Autonomous and I do have to say that it has transformed the way we do daily academic activities. As we grew and became University in 2018, it has helped our institution to make fast decisions and ultimately become dynamic and competitive in education industry and also helped in student academic growth.

Automation of different department activities such as Academics, Examination, Payroll, Hostel and Transport Management has reduced our expenses and overhead. Digital evaluation has made things very easy and time-bound and we are able to publish our result within 15 working days from the last day of examination as per institute rules.

The flexibility of BeeS Software Solutions and support services has allowed us to do multitasking, reducing errors, improving efficiency and ultimately cost optimization. All this adds up to a very comprehensive system that we use on a daily basis. I am happy to see continued improvements and new features in the system and regularly recommend BeeS Software Solutions to my contacts and I wish BeeS Software Solutions "All the very best for their future endeavors".
