### TO WHOMSOEVER IT MAY CONCERN

In this rapidly changing business environment, every organization, irrespective of their nature of operations, looking for a new approach to manage their business effectively. The usage of Enterprise Resource Planning (ERP) software in solving the problem is a common trend in this technology advanced era of business.

The situation of an educational institution is not different; they have also shown enthusiasm in adopting campus automation software. BeeS Software Solutions has provided a unique integrated platform with its features and performance. This software integrated various facilitates like attendance management, Fee collection management (Online & Offline), exam management, student info management, faculty management, mobile app, etc.

I am extremely happy to be associated with BeeS Software Solutions since 2011 and I wish all the very best for their future endeavors.
